

Corporate Fact Sheet

Founded	October 1998	
Headquarters	AuthenTec, Inc. 100 Rialto Place, Suite 400 Melbourne, FL 32901	Phone: 321.308.1300 Fax: 321.308.1431 Web: www.authentec.com
Operations	U.S., Europe, China, Taiwan, Japan; Distributors worldwide	
Financial Status	Publicly traded on the NASDAQ Stock Market under the ticker symbol AUTH.	
Profile	With more than 20 million sensors in use worldwide, AuthenTec is the world's leading provider of authentication sensors and solutions to the high-volume PC, wireless device, and access control markets. AuthenTec's award-winning sensors take full advantage of The Power of Touch™ by utilizing the company's patented TruePrint® technology to deliver the most convenient, reliable and cost-effective means available for enabling touch-powered features that extend beyond user authentication. AuthenTec is an Inc. 500 company, Fortune Breakout 25 company, Wall Street Journal Technology Innovation Award winner, and three-time winner of Frost & Sullivan's Market Leadership Award.	
Technology	AuthenTec's patented TruePrint® and TrueMatch® technologies allow fingerprints to be read below the surface of the skin to the live layer – or true fingerprint. As such, they are less affected by common skin surface conditions, including dry, worn, calloused, dirty or oily skin that can hinder competitive sensors' ability to acquire accurate fingerprint images for user authentication purposes. TruePrint is the only fingerprint sensor technology capable of acquiring everyone's fingerprint under virtually any condition.	
Products	AuthenTec offers 15 different slide and touch sensors among its award-winning product families. Every AuthenTec sensor utilizes the company's patented TruePrint technology to deliver extremely accurate and reliable fingerprint imaging, thus enhancing both device security, convenience and user efficiency.	
Partners/Customers	The company's network of partners and customers includes; Analog Devices, APC, ASUS, Bioscrypt, Cherry, Compal, CA, Fellowes, Fujitsu Computer, HP, IBM, Intel, Lenovo, LGE, Microsoft, Motion Computing, Packard Bell, Samsung, SCM Microsystems, Tatung, Texas Instruments, Toshiba, Quanta, among others.
